

## 2016/17 Addison United Program Descriptions:

After much feedback from parents, players, and coaches, along with numerous extended discussions late into the evenings, AUSC will offer more program options for our players. Our goal is to provide more training after the fall school season through winter for those players who are seeking to develop their skills throughout the school year while continuing to offer our established programs for players who want to focus on soccer only during the spring season. We are confident these new options will help AUSC grow our soccer community and help develop new and existing players to be more competitive in league and tournament games. ### General Descriptions:

**CLUB Level** - This program will continue as a developmental program running mid-March through June, much like our past spring soccer package. There will be two practices a week, games scheduled through the Vermont Soccer Association, and one Vermont-located Tournament. Uniform jerseys/kits are not included and will need to be ordered through our partner at Soccer.com. U8 players will receive a team t-shirt provided by AUSC.

★ *Addison United Soccer Club (AUSC) participates in the Vermont Soccer League (VSL), which maintains three distinct divisions. The selection of which division each team plays in is determined by the coaching staff and is primarily based upon the skill levels of the players on a given team. Historically, the AUSC has registered teams in Division 2.*

**PREMIER Level** - This new, exciting program is for the player who loves the game of soccer and wants to be focused on soccer November through June. It is a training program, being offered to those players who are committed to developing their skills after the fall school season through winter, in preparation for the spring season. At the Premier Level, players will have technical training and scrimmages two times a week in November through April: one at VUHS and the other at an indoor fieldhouse facility. This level also will compete in the third session of Futsal. (AUSC recognizes their players participate in other sport activities during the winter season and will try and work around those schedules.) **During the spring season, there will continue to be two practices a week (outdoors, of course), games scheduled through the Vermont Soccer Association, and participation in two or more tournaments (depending on age group) in and around Vermont (TBD). Uniforms Kits are not included and will need to be ordered through our partner at Soccer.com. This program will play as Division 2, with the goal of being Division 1 in future years. See below for each age group full description.**

### Age Groupings:

**U8 Club Level (birth years 2009-11), \$135.00** - This program will continue as a developmental program running mid-March-June. Included is a team t-shirt, two practices a week, games scheduled through the Vermont Soccer Association and the Kohl's Cup Tournament.
